

Cotton Armor Naturally Protects Your Pipes & Ducts

Applegate's Cotton Armor is now available with a 5-mil reinforced foil backing for your pipes and ducts. Made from 85% recycled content, Cotton Armor duct and pipe wraps provide an eco-friendly solution for sweating pipes and heat loss from air ducts. No goggles or mask needed—no itch!

Excellent for: Stopping sweating and dripping on cold pipes. Reduces heat loss on hot water pipes.

R-Value	Item Code	Width	Length

R-4	10-5004	10"	15'

ACOUSTICAL & THERMAL

COTTON ARMOR™

Cotton Denim Insulation

The natural advantages of Cotton Armor allow environmentally concerned contractors and building owners to protect their buildings and energy dollars while reducing environmental impact. Unlike traditional fiberglass, Cotton Armor will not cause the irritation or itching, often associated with fiberglass as it doesn't contain or release glass threads. Its flexibility makes it easy to wrap and can quicken installation time. And, the natural sound attenuating properties of cotton make Cotton Armor duct and pipe wraps an ideal material for those looking to quiet noisy ducts and pipes.

For every house is built by some man; but he that built all things is God. – Hebrews 3:4
